I am very impressed with the staff at Dr. O'Connor's office.

My current state of health requires that I attend the doctor's office weekly and as result I have observed, on an on-going basis, the employee's dedication to their duties. I have also evidenced first-hand that they work harmoniously and with sensitivity to provide the best service to meet the needs of the patients. I have never experienced personally or seen any other patient been treated with other than respect, kindness or professional attention. This mode, in turn, is demonstrated in the interactions between the employees and the doctors.
