

1078

I have been a patient with Dr Rob O'Conner since he opened his practice, 5 yrs ago.

In this day when its hard to find a family physician, I feel blessed to have met Dr. Rob and have him as my family doctor.

He truly is concerned about my well being, always asking, if there is anything else that needs attention, or how did that treatment work for you. You know he is not just pushing the patients through like a factory, but giving real care.

Also must mention that the medical office assistants are top notch, keeping the operation moving smoothly.

As mentioned earlier, it's a blessing to be part of the Me'Chosen medical family.
