The Me'Chosen medical clinic is no ordinary Dr's office. The Dr. & staff are always very professional & have excellent patient/clinic reports. I am personally going to the Dr's office quarterly & have had extensive care. These visits are always enjoyable & the view of the ocean is therapeutic on its own. I have had nothing but first rate service & find the trips to the doctor office enjoyable. I consider the Dr & staff friends & words do not do justice to the Me'Chosen Medical clinic.
